

# STRATCO OUTBACK®

## OUTBACK FLAT ROOF

### OUTBACK FLAT ROOF

Create a functional outdoor living area that will enhance your home and lifestyle with the smooth, simple, uncluttered lines of the classic Outback Flat Roof. The versatile Outback Flat Roof system can be configured to cover any area around the home.

It is ideal as a single unit or incorporated with a gable roof, curved roof, or pergola system. Available as either a freestanding structure or attached to the home it can be used as a verandah, patio or carport. With the addition of the Outback Rooflite™ you can supply filtered light to the underside. The beams can span up to 8.4 metres and are available in either 120mm or 150mm sizes.

There are four configurations to choose from:

- Type One has a 4.5 metre maximum span and only requires an outside beam to support the structure, although most units use perimeter beams on all sides to provide the best appearance.
- Type Two is the same, but with an overhang at the front to increase the covered area to 5.4 metres.
- Type Three has support beams across the span so the roof sheets can run horizontally for a different appearance.
- Type Four has extra support beams and a purlin through the middle to give it a span of 8.4 metres.

*"Bring your outdoor lifestyle dreams to life with Stratco Outback"*

### SMART DESIGN

Stratco designers work hard to give you smarter solutions for your outdoor living space, including:

- Enclosed beams to discourage pests
- Minimal framework for less cleaning
- Fewer visible screws for a neater appearance
- Self-locating brackets for easier installation.

### COMPLETE CUSTOMISATION

The Stratco Outback range is designed as a complete customisable package, giving you the freedom to design your own style, shape, size and colour. All Outback designs are supported by in-house engineering and local manufacturing, offering you unrivalled design flexibility.

### INTELLIGENT ENGINEERING

Stratco engineers work hard to give you intelligent solutions for your outdoor living space, including:

- Council-friendly plans for easy approval
- Specifications that exceed building regulations
- Unique beam & bracket system for strength
- Impressive spans for uninterrupted views.
